Subject: I'll be out on Friday and all of next week (14-file issue, too)

Congrats on getting married, Rob!! Now back to reality, I guess! :)

Note: I will be OUT on Friday and all of next week, so I'll talk to you on the week of June 11th!

I moved all of the files to "on website" from the sections below. There's still a discrepancy, though.

This shows 845 files:

I:\ManagedShar3\Pavillion\Entire Doc Collection

This shows 859 files, so I'm not sure which 14 I'm missing:

I:\Restricted Share\Pavillion\doc review for posting\on website

Again, I moved the 26 files below to "on website" - and they are also in the "Entire Doc Collection" folder. So, I'm just not sure which 14 files I'm missing.

1. In this existing directory:

<ftp://ftp.epa.gov/r8/pavilliondocs/WellSamplingInformation/SamplingFieldNotes/>

We are creating a new folder called Phase1FieldNotesRedacted. This folder will contain three files:

Book1_Redacted.pdf
Book2_Redacted.pdf
Book3_Redacted.pdf

2. In the same existing directory:

<ftp://ftp.epa.gov/r8/pavilliondocs/WellSamplingInformation/SamplingFieldNotes/>

We created a new folder called Phase2FieldNotesRedacted. This folder contains four files (Book 2, Book 4, Book 5/6, and Book 7 - redacted)

3. We have the following existing folder on the website which previously contained 17 Soil Gas Testing Log Sheets; we have now added the remaining 25 to the folder:

<ftp://ftp.epa.gov/r8/pavilliondocs/WellSamplingInformation/SoilGasSampling/SoilGasTestingLogSheets/>

4. In this existing directory:

<ftp://ftp.epa.gov/r8/pavilliondocs/WellSamplingInformation/SoilGasSampling/>

We created a new folder entitled GeoProbeFieldNotes and populated it with two files entitled FieldNotes_Redacted.pdf and GeoprobeCore_Redacted.pdf
